VertoLive

makes the Verto system perfect

With over 35 years of experience, Verto is Finland's leading apartment-specific water metering system. VertoLive makes the whole thing perfect: it allows accurate, apartment-specific water consumption monitoring online.

VERTO IS THE BEST REMOTE READING WATER METER ON THE MARKET

VertoLive's intelligence provides superior service. It works directly in a browser, without any additional software. Up-to-date and error-free data is uploaded to the cloud daily and automatically.

With VertoLive, you can keep track of company and home-specific information at any time, anywhere. It is easy to export consumption figures directly from the program to invoicing. VertoLive saves you time and effort.

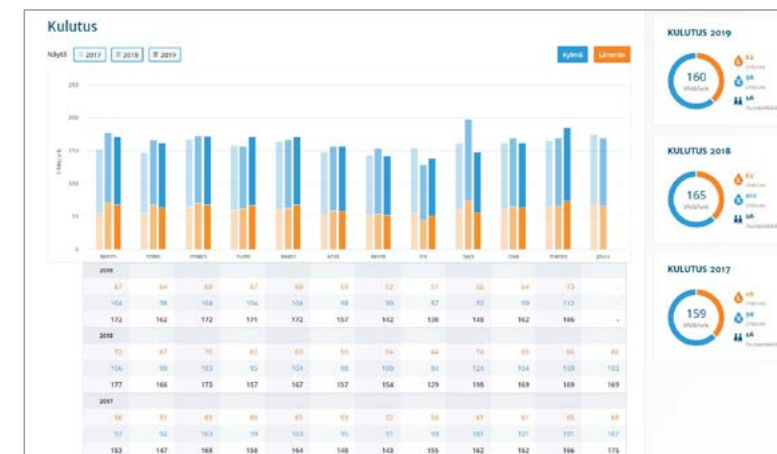

VERTOLIVE PROVIDES CONSUMPTION READINGS FOR BILLING

The Verto system enables various interface solutions. Please contact our customer service so that we can together create a complete set-up to facilitate your water billing. +358 10 7340 700, verto@verto.fi

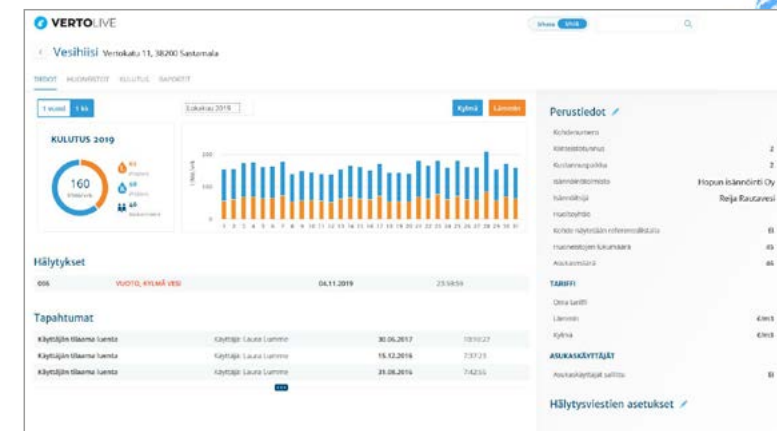

The Verto system generates files that can be exported into the most common property management and billing software. To view an up-to-date listing of compatible software, log into VertoLive or go to verto.fi/vertolive.

"BILLING IS EFFICIENT, THE SYSTEM SUPPORTS OUR WORK AND SAVES TIME."

Johan Nyholm, Porvoo OP-Management

Clear graphs make it easy to track consumption.

Accurate and up-to-date consumption information is always available.

Unique benefits

UPDATED INFORMATION ALWAYS AVAILABLE

The system sends the consumption data to VertoLive daily and automatically. VertoLive works online so you can access the service anywhere.

EASY TO READ AND INVOICE

You can transfer accurate and up-to-date consumption figures from VertoLive directly to your billing software at the touch of a button.

CENTRAL FOLLOW-UP

You can retrieve company and home consumption data for all housing associations in one place, with a single user ID.

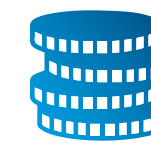

RAPID ALARMS

VertoLive detects apartment-specific leakages and anomalies in water consumption and communicates alarms directly to the service provider.

CLEAR REPORTING

VertoLive provides company-specific and apartment-specific reports for various time periods. Reports are easy to access and edit.

TARGETED INVOICING

VertoLive lets you target your water bill for a particular day. Targeting can also be done retrospectively, which is convenient, for example, when moving.
